

*Input:- 93012630*

*Output:- 2,6,12,30,930,*

*We should divide the total number into substrings  
and we should  
verify each num is pronic num or not if pronic we  
should print that num*

*integers*

*Ex: 6- $\rightarrow$ 2\*3 it's a pronic*

*12- $\rightarrow$ 3\*4 it's a pronic*

*Input: 12665042*

*Output:- 2,6,12,42,650*
